DAILY REVENUE CONTRIBUTION AGREEMENT

Effective Date: 2026-11-06

This Daily Revenue Contribution Agreement (the "Agreement") is entered into on 2026-11-06 between DRC Fund I (the "Investor") and Kaffee und Tee GmbH, a limited liability company with its place of business in Hannover, Germany (the "Merchant").

The Merchant operates a cafe and tea business and receives customer payments through PayPal and in its shop. The Merchant wishes to obtain growth financing from the Investor in exchange for a share of its daily revenue, and the Investor is willing to provide it, on the terms set out below.

1. Definitions. "Trading Day" means a day on which the Merchant is open for business. Days on which the Merchant is closed, such as public holidays and rest days notified to the Investor in advance, are not Trading Days. A day with no completed transactions that was not notified in advance as a closure day counts as a Trading Day with zero receipts. Trading Days and daily cut-off times are determined in the Europe/Berlin time zone. "Total Receipts" means all amounts received by the Merchant from customers for completed sales through any payment channel, including PayPal, card, cash and bank transfer. "Verified Net Revenue" means, for each Trading Day, the Merchant's Total Receipts, net of PayPal receiving fees, excluding any transaction that the Servicer's verification process identifies as not genuine, such as self-dealing, voided or refunded transactions. "Baseline Threshold" means 90% of the average daily Verified Net Revenue per Trading Day over the 90 days before the Funding Date, fixed at signing at EUR 703.26. "Servicer" means the servicing agent appointed by the Investor. "Escrow Account" means the PayPal business account "DRC Fund I Escrow" held for the benefit of the Investor.

2. Investment. The Investor shall pay the Merchant EUR 20,000 (the "Investment Amount"). The Investment Amount is funded on 2026-11-06 (the "Funding Date").

3. Revenue Share. On each Trading Day starting on the Funding Date, the Merchant shall contribute to the Investor 5% of Verified Net Revenue per Trading Day up to the Baseline Threshold of EUR 703.26, and 3% on the portion of Verified Net Revenue above the Baseline Threshold (together, the "Daily Contribution").

4. Repayment Cap and Automatic Termination. The Merchant's total Daily Contributions are capped at 1.15 times the Investment Amount, being EUR 23,000 (the "Repayment Cap"). This Agreement terminates automatically when cumulative contributions reach the Repayment Cap. On the day the cap is reached, the Daily Contribution is reduced so that cumulative contributions equal the Repayment Cap exactly. Payout fees do not count toward the Repayment Cap.

5. Maximum Term. The maximum term of this Agreement is 24 months from the Funding Date. This Agreement ends on the earlier of the date on which the Repayment Cap is reached and the end of the maximum term, after which no further Daily Contribution is due.

6. Settlement. The Daily Contribution is settled daily via PayPal Payouts to the Escrow Account. The full Daily Contribution is transferred to the Escrow Account. PayPal payout fees are borne by the Merchant in addition to the Daily Contribution; they are charged to the Merchant separately and are not deducted from the amount transferred. Payout fees do not count toward the Repayment Cap.

7. Collection. Contributions are collected daily from the Merchant's PayPal balance; if the balance is insufficient, the shortfall is collected by SEPA direct debit from the Merchant's nominated bank account. For this purpose the Merchant shall, on or before the Funding Date, grant a SEPA direct debit mandate in favour of the Investor (or the Servicer acting on its behalf) and shall keep the mandate in force while this Agreement is in force.

8. Servicing Fee. The Servicer is entitled to a servicing fee of 5% of each Daily Contribution (the "Servicing Fee"). The Servicing Fee is deducted inside the escrow pool before any distribution to the Investor. The remainder of each Daily Contribution is distributed to the Investor.

9. Health Covenant. If the average Verified Net Revenue over the last 7 Trading Days falls more than 20% below the average over the last 30 Trading Days, the revenue share rate of 5% may be reduced to 3% for up to 30 days, subject to the approval of the Investor. The 3% rate on the portion above the Baseline Threshold is not affected. No reduction applies without the Investor's approval.

10. Data Covenant. The Merchant authorises the Investor and the Servicer to have read-only access to the Merchant's PayPal transaction data for the purpose of verifying revenue, and shall not restrict or revoke this access while this Agreement is in force. Unexplained card-revenue gaps of 3 or more Trading Days constitute a reporting breach by the Merchant.

11. Payment Channel Covenant. The Merchant shall continue to accept customer payments through PayPal, including card payments processed by PayPal, on the same basis as before the Funding Date. The Merchant shall not direct, incentivise or encourage customers to use other means of payment, or otherwise divert sales away from PayPal, in order to reduce Verified Net Revenue. If the PayPal share of Total Receipts falls more than 15 percentage points below its 90-day pre-funding baseline, the Servicer may request a written explanation and a review; this alone is not an event of default. Cash and other receipts outside PayPal must be reported under Section 12.

12. Financial and Tax Reporting. The Merchant shall deliver to the Investor in electronic form: (a) within 10 days after each month-end, a statement of Total Receipts for that month by payment channel, including cash and other receipts outside PayPal; (b) within 14 days after filing, a copy of each periodic VAT return (Umsatzsteuer-Voranmeldung); and (c) within 6 months after each financial year-end, its annual financial statements and the related income tax filing or assessment. On reasonable notice, the Investor or the Servicer may inspect the books and records supporting these reports, including cash receipts. Failure to deliver a report on time is a reporting breach.

13. Representations. The Merchant represents that all transactions it reports are genuine sales to independent customers. The Merchant shall not create artificial, circular or self-dealing transactions, and shall not void or re-price sales in order to reduce Verified Net Revenue.

14. Consequences of Breach. Upon a reporting breach or a breach of Section 11, the Merchant shall provide a written explanation to the Investor without undue delay, and the Investor may withhold its approval of any rate reduction under Section 9 until the breach is remedied.

15. Governing Law and General Provisions. This Agreement is governed by the laws of the Federal Republic of Germany. The place of jurisdiction is Hannover. This Agreement is the entire agreement between the parties on its subject matter, and amendments require written form and the signature of both parties.

Signed in two originals, one for each party.
